Snow & Ice Management

Midland has the equipment, personnel, and experience to provide a high level of service for each of the following tasks:

Snow Plowing

Salting

Zero Tolerance Service

Private/Public Walk Shoveling

Calcuim Chloride Application

Snow Relocation & Removal

Route Inspections

Service Advantages

*Midland offers a zero-tolerance service to ensure there is no snow or ice build up during the winter storm.

*We have several salting depots throughout Chicagoland to provide quick response to icy conditions.

*We have a large fleet of trucks and personnel to service the Chicagoland.

*Midland employs on-call backup drivers and vehicles for every storm to handle any unforeseen mechanical or route coverage difficulties.

*Each property is inspected once the work is complete.

Customer Services

Midland has 24-hour customer service. You will always be able to talk to our staff before, during, or after a storm.

Midland has full insurance coverage and issues each customer a certificate of insurance for each individual job site.

Site plans are made for each jobsite to layout the scope of work and where to snow place snow on the property.

Storm warnings are issued by fax or email to each customer about impending snow activity.

Next day work reports are issued to each customer detailing all services performed at the jobsite.

Customer invoices are sent out after each storm event. Each invoice will coincide with the work report that was sent out.

Storm snowfall totals are issued to each customer with the invoice

About Midland Snow Staff

President: Andrew Storniolo

Andrew co-founded Midland Snow & Ice in the late 1990's. He had a belief that top notch employees, excellent customer service, and a sound financial strategy would lay the foundation for Midland Snow to become the premier snow and ice management company in the Chicagoland area. Andrew brings years of experience and knowledge of the Chicagoland business community along with a steady hand of leadership. His ability to exceed customer expectations has become second nature and he makes sure it is the primary goal of Midland Snow.

Operations Manager: George Benes

George is the co-founder and driving force behind Midland Snow & Ice. He first fell in love with snow during the 80+ inch snowfall years in the late 1970's. Since then he has slowly, but surely moved up the snow plowing ladder. George brings years of experience in managing drivers, equipment, and materials to Midland Snow. During winter storms he is at his finest handling all of Midland's resources to ensure that each of our customer job sites are properly serviced.

Andrew and George are dedicated to growing Midland Snow & Ice and keeping lasting relationships with customers and staff

In order to provide the highest level of customer service and the most efficient use of Midland Snow's resources, Midland's staff is divided into the following categories:

Drivers

Drivers are trained to be the best at providing top-level service. Midland takes pride in retaining our drivers year after year.

Office Staff

Office staff is loyal and dedicated to working with our customers and building long lasting relationships to the benefit of both parties.

Snow Estimators

Estimators gladly meet with customers at their jobsite to provide a fair and accurate estimate.

Route Supervisors

Route supervisors inspect our snow routes after completion to ensure our customer's job sites have been properly serviced.

Mechanics/Maintenance Staff

Mechanics and yard workers keep our equipment in tip top shape. Each truck is thoroughly cleaned and serviced after every winter storm.
